-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Claim Rejections - 35 USC § 103***

1. Claims 1-17 rejected under 35 U.S.C. 103(a) as being unpatentable over Keener (5513848) in view of Jones (4003578).

Keener teaches a board game path with squares (2,6,7,8,9), lure cards (3) with location, fish specific lure cards (4) with location, game pieces (Fig.2), tackle shop and boat ramp (6), parking lot (5) and dice (Fig.3). Keener further teaches a space defining losing a lure due to a fish (1: 29-36).

Keener teaches all limitations except that it does not expressly teach multiple paths.

Keener does teach that the path can be any shape or configuration keeping the game within spirit and scope (2:19-22).

Jones teaches a game surface with entire surface /grid as fishing area and can be treated as multiple paths (Fig.1) for the convenience if a large group of players are playing the game.

In order to make the game surface available for a large number of players, it would have been obvious to use multiple paths.

One of ordinary skill in art at the time the invention was made would have suggested providing multiple paths for a larger group of players.

Note: rules for playing as in claims 7,14,15,16 do not further limit the apparatus in the claims.

Claims 2,9: Keener teaches all limitations except that it does not expressly indicate a space defining a weight of fish and a lost lure. Keener however inherently teaches a fish

Art Unit: 3711

that is big enough to cause a player loose its rod (reference character 9 ) (obviously with the lure) indicates a fish having certain weight that must have been overwhelming and not suitable for that kind of fish.

One of ordinary skill in art at the time the invention was made would have suggested relating a fish weight to the lure that would be lost if used.

***Response to Arguments***

2. Applicant's arguments with respect to claims 1-17 have been considered but are moot in view of the new ground(s) of rejection.

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
